NUMBER 315

POST OFFICE EMPLOYEES WANT HIGHER WAGES

Unsigned Clerks of Calgary Office Send Petition to Department Asking for Raise of \$18 Per Month -- Claim That Cost of Living Has Greatly Increased--Board of Trade Backs Up Agitation

Calgary, Feb. 2.—The Calgary post office employees were very active yesterday in their campaign for an increase in wages. Their first petition was sent in asking for a \$10 advance. They claim that the cost of living in Calgary has considerably increased, which has made it necessary, the employees believe to send in another petition asking for \$18 more, instead of \$10. Yesterday the following petition was signed by all the employees and forwarded to Ottawa: "The undersigned clerks of the Calgary Post Office respectfully beg to draw attention to the former petition forwarded to you Nov. 17, 1906. We now desire to point out that since presenting the petition the cost of living has considerably increased. The hotels have raised the price of meals from \$5 to \$7 and private boarding houses are raising their prices in the same proportion. Averting to our previous petition therefore, we respectfully ask that instead of the \$10 per month therein asked for we be granted \$18 per month in addition to our present salaries. "From experience we find that our present remuneration is entirely inadequate to meet our needs. We submit this petition in the earnest hope that you will take action in the matter." The following resolution was also sent to Ottawa yesterday by the Board of Trade:

"That in view of the cost of living in Western Canada this board is of the opinion that the salaries paid the post office clerks are entirely inadequate and as a result of the small salaries paid the service is suffering materially. "This board would therefore respectfully recommend that the salaries of the post office clerks in Calgary be increased on the same basis as has been granted the custom house clerks."

Winnipeg's Power Scheme

Winnipeg, Feb. 2.—At the meeting of the Civic Power Committee yesterday afternoon, it was stated that an offer had been received from English contractors to build the whole power plant at Point Du Bois, and to accept the power debentures in payment at a certain figure. The contractors would be willing to tender for the contract to erect the plant along with the other tenders, and the city could decide whether their tender price was satisfactory or not. R. D. Johnson, assistant chief power engineer, reported on the power census. It had been found that there was 22,077 horsepower installed in Winnipeg now. This amount did not include the 2,500 horsepower used for traction purposes. The Winnipeg Electric Railway company had 100 horsepower installed, but was supplying 5,500 horsepower. There was almost 1,000 horsepower more used in summer than at any other season of the year. In private plants there was 8,860 horsepower installed. The highest amount of power that could be used at one time at present was 17,000 horsepower. That amount could be used at 5 o'clock in the afternoon.

Balfour's Colonial Opinions

London, Feb. 2.—H. A. J. Balfour, speaking at Hull yesterday, said a monthly bulletin of his opinions were not needed as study on the fiscal question, but confirmed the opinions long held and expressed. He asked was it not a serious thing that the colonial ministers were coming here in a few weeks, and the party in power had said not one single thing in public indicating that they sympathized with the colonies which the great self-governing colonies proposed for carrying out the unification and consolidation of the empire. (Cheers.) The speaker added that he could not accept the policy of driving every unionist into the single orthodox fold. Fiscal reform remained the main construction policy of the Unionist programme, but let them not become a party of one idea, because, if they did, they would fail to carry even that idea to a successful issue.

Will Junket in Canada

Chicago, Feb. 2.—Unable to secure passes and a special train free for their annual junket in the United States, the National Association of Railroad Commissioners has successfully appealed to the Canadian railroads. Through the energy of Secretary Wm. Kirkpatrick, of the Illinois State Railway and Warehouse Commission, the association members will enjoy a special and luxurious train free of charge all the way across the continent from the Niagara frontier to Vancouver. From the latter city the steamer Princess Victoria will carry them down to Seattle, where they will hold their annual pow-wow.

Grenfell Church Burned

Grenfell, Sask., Feb. 2.—The Methodist church here was totally destroyed by fire this afternoon. The blaze is supposed to have started from an overheated furnace. With the temperature 30 below, the town fire brigade fought the flames for some time, but to no avail. The building and contents were worth about \$5,000, with insurance of \$1,400 in the Canadian Fire, divided as follows: \$1,000 on the building, \$300 on contents, \$100 on the organ.

HEAVY DOCKET IN SUPREME COURT

Ten Criminal, Seventeen Large Debt and Eighteen Small Debt Cases-- Will be Last Court in Edmonton Under Old Rules--Journal Libel Does Not Come Up.

The sessions of the supreme court open on Tuesday, Feb. 5, in the court room, Sandhill block, Edmonton, before Mr. Justice Harvey of Macleod. The docket includes ten criminal cases, 17 large debt, and 18 small debt cases. One of the important and interesting suits will be the case of Rex v. Martin, the libel case brought against the Edmonton Free Press, by J. W. Woods of Salt Lake City. The Journal libel suit will not come up for hearing at this court. The probability is that it will come up at the next court.

In all probability this will be the last sitting of the supreme court of the Northwest Territories, as the act creating the high court of Alberta will have passed the legislature before the next term of court. The following are the criminal cases, EDMONTON COURT.

Castle Hotel Co., non-payment of wages; Giroux, misappropriation of money; Martin, libel; Blechnor, false pretences; Kelly, theft; Matthews, theft; Cable, perjury; Somers, false pretences.

LARGE DEBT LIST.

Union Investment Co. v. Pullisky; Moses v. Bible, Lams v. Worley, Shickston v. Little, Revillon v. De Roma, Crawford v. York, Fairchild v. McCauley, Smith v. Lefebvre, Leonard v. Lefebvre, Crawford v. Ginter, Holland v. Kovas, McCauley v. Sterling, Peters v. Perras, Kelly v. Keltz, Hayt v. Martin, Gabel v. Gabel, Wagner v. Wagner.

FIREMAN KILLED.

Crown Sheet Blows Out of Locomotive at Indian Head.

Indian Head, Sask., Feb. 1st.—A fatal accident occurred here about 2 o'clock this morning. Just as No. 1 express was approaching the depot, the crown plate of the locomotive blew out, and the fireman, Louis Desjardins, 37 years of age, was flung several yards away by the force of the explosion, and frightfully burned. He was taken to the hospital here and placed under the care of Dr. Connell, but he is not expected to live. He was recently from the province of Quebec.

MOTOR BOAT RACES.

Palm Beach, Apparently, Is Not Tied

Palm Beach, Feb. 1.—The Sir Thos. Dwyer sailed trophy for the fastest motor boat race on Lake Huron yesterday was won by Commodore E. J. Schaefer's Baze, the time with the tide was 2 minutes and 30 sec, against the tide 2 minutes and 21 1/2 sec.

CALGARY HEARD FROM.

Trains on the C. & E. Run Late, but They Reach Their Destination.

Calgary, Feb. 2.—The train from the north due last night at 5 p. m. did not arrive, this city until midnight, being seven hours late. All the way down snow plows were kept ahead of it, so in some places the snow was drifted four and five feet. Providing the weather stays clear the system will be running on time today, and the congestion of freight relieved.

WILL CONSOLIDATE DEBENTURES.

Winnipeg's Mayor Will Probably Go To London To Float Civic Bonds.

Winnipeg, Man., Feb. 2.—Owing to the fact that the unsatisfactory offers have been made for city debentures, a proposition is now being discussed for the consolidation of the city's debentures, and a clause along this line will probably be submitted to the legislature at the present session. If this course is taken, Mayor Ashdown will probably be sent to England to confer with brokers there as to the advisability of having the debentures quoted regularly on the London Stock Exchange.

Manitoba is Tied Up Tight A More Cheerful Report

Winnipeg, Man., Feb. 2.—The blizzard which reached the city and the country. The street railway company was able to move cars in a sort of way till midnight, and then lay down. There are but two trains moving in the province, and these are hours late. Two trains arrived over the C.N.R. during the afternoon. In Alberta and Manitoba there is little or no sign of a break, but in Saskatchewan the wind is falling. All points in the west report an absolute blockade.

Brandon, Man., Feb. 1.—What is claimed to be the worst storm of this bad season has been raging all day over this section of the C.P.R. The officials state that all their branch lines are badly blocked. No trains are running, and efforts to open the lines have been stopped until the storm ceases. The main line west of here is as badly blocked as the branch lines, and no trains arrived Thursday or today, and it is reported that three eastbound trains are snowbound west of Swift Current. The supply of fuel is getting smaller and smaller, and there is great danger of real suffering should the storm continue for many days. Ten cars of soft coal arrived in the city this morning, consigned to different dealers, and when it became known that this fuel had arrived, there was a general rush to the fuel dealers, but all had to go away without coal as the dealers decided to serve it out in small quantities to orders already booked, and the demand far exceeded the supply. One man offered \$10.00 for a ton of hard coal, but it was refused. The Canadian Northern engine and snow plow, which had been for the past few days opening the line from Pelly, arrived here last night. It was expected that a trainload of wood would arrive today from Bertha's siding, but now it is feared that the line will be blocked again by today's storm.

There was only a small mail last night over the C.P.R., no connection having been made with the main line at Calgary. The train was six hours late reaching Strathcona, not arriving till ten o'clock.

Winnipeg, Feb. 2.—J. Drowe, manager of the J. H. Ashdown Hardware Co. at Calgary, expresses a more hopeful opinion of the situation in the western ranches than recent telegrams would lead one to expect. Recent reports, he says, are a good deal exaggerated. He has within the last week or two been over the ranching country along with bankers and his customers, and he has come to the conclusion that the losses up to the present, at any rate, are not serious. The losses may amount to about \$200,000, quite a small proportion of the total value of the stock. The losses are mostly among the "hogies," or imported cattle, the native bred cattle knowing better where to seek shelter. Cattle never stampede in cold weather, but drift before the wind till they find shelter in coales. Many of the imported stock, however, have drifted 100 miles from home. Another feature is that the losses are principally among the larger bunches. Small ranchers have paid up sufficient hay for their herd, and their losses will be no greater than an average winter.

C. N. R. is Again Tied Up

The C.N.R. is again pretty well tied up as the result of Thursday's storm. A train was sent out last night, however, at the usual time and another will leave to-night. None will reach here today as there is a tie-up near Vermilion. During the past two days Supr. Carey has been out on a special working between the city and Vermilion, and is expected back this evening. No intimation has yet been received here of the proposed tri-weekly service instead of daily between here and Winnipeg, but it is likely to go into effect on Monday week.

Elections To-Day in British Columbia

Close of the Most Strenuous and Spectacular Campaign in the History of the Troubled Province by the Sea. Scandal and Graft the Topics of the Hustling. McInnis puts up a Great Fight for Honest Administration

Vancouver, B. C., Feb. 2, 1907.—Today is election day in British Columbia, marking the close of the most spectacular and strenuous campaign ever held in this province. All the indications portend a sweeping victory for the Liberal cause. In fact, defeat has been practically conceded by the conservatives for the past week or ten days.

The storm center in the campaign is Vancouver and Victoria, where nine seats are at stake, were swinging in the balance, but since the terrible disclosures of graft and impossible in the mountain country corruption unseated in the lands and works department within the few days are now admittedly Liberal.

The spectacular feature of the campaign is the great fight put up by "Little" McInnis, who resigned a \$12,000 berth as governor of the Yukon to come back to the province of his first love, and fight the good fight for an honest government. McInnis has been speaking two or three times a day for the past three weeks, travelling all over the province, at a rate of speed heretofore considered impossible in the mountain country.

Another constituency in which there is a wild fight is Kaslo, "Bob" Green's old stronghold, in which his deputy in the land office, the Conservative candidate against John Green. Green was practically forced out of the running by the coast Conservatives, who would not stand to be saddled with the blame of the Kaimosi scandal, the infamous Caran deal, and many other nefarious samples of graft, and who demanded a blank check for the sacrifice. Green, however, does not feel constrained to take hisousting ease in the winter.

Strathcona Council Board Turns Down Alameda Site For Hospital in Favor of the Walters Site

Yesterday afternoon Strathcona had very difficult proposals before the council of available sites for the new Municipal Hospital. One was the proposed site in Alameda and also a free site for the Bailey Park Works. The other was the offer of Mr. John Walters for \$100,000 of the site in the west end previously considered. The council, after much discussion, decided in favor of the Walters site at \$10,000 as against the Alameda site at \$100,000.

In favor of the Alameda site Mr. J. M. Allen, as promoter for the hospital, stated that the site was a very good one, and that the hospital could be built there at a cost of \$100,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$100,000.

Against this view he had the big cost of many thousands of dollars to be paid for the site. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$100,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

Mr. Walters, on the other hand, stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000. He also stated that the site was a very good one, and that the hospital could be built there at a cost of \$10,000.

hospitals purposes and proposed work.

Mr. Walters' plan, as made to the Health and Relief Committee yesterday was the last for \$100,000, on a five month period. The council must erect a \$100,000 hospital. If this proposal is carried out, the hospital will be built on the Walters site.

The council's decision was a very important one, and it was a very good one. The hospital will be built on the Walters site, and it will be a very good one.

The council's decision was a very important one, and it was a very good one. The hospital will be built on the Walters site, and it will be a very good one.

HURRY ALBERTA

There is a good deal of newspaper talk in Eastern Canada to the effect that this cold winter in the West will prevent many famous east of the Great Lakes from coming West this year as they had intended, and some publications are preaching the cold weather doctrine with a cold worthy of a better cause. It is true that this is the coldest winter since 1868-69, and that Alberta has not been so early in the banana belt for the past two months, but the weather is not at all alarming and such a thing as a blizzard or real old-fashioned snow storm has not visited this province this winter.

The shortage of fuel has not been serious anywhere in Alberta as our inexhaustible beds of coal have kept everything warm as well as relieving the distress of our neighboring provinces. The lack of coal supply in many towns was the result of a lack of preparation for a cold winter. The weather in November, December and January has been so fine for the past number of years that the consumption of fuel has been light and the railways have been not hindered by either frost or snow in the supply of coal to any of these towns at any time in the winter.

This kind of weather will be a lesson to all to be prepared in future, and the railway companies will surely waken up and equip their roads with motive power that will be operative in even weather such as we now have.

There is nothing alarming about the conditions in the country and the heavy fall of snow is sure to bring its recompense to the farmer in an extra bumper crop next harvest. The rancher will suffer, in some cases severely, but the day of the cattleman is passing in Alberta and this winter will determine many men to engage in farming who probably had reached in mind. Taken altogether this winter has been a much pleasanter one here than were the winters of 1880-81 and 1894-95 in the province of Ontario. No such storms and drifts as completely blocked transportation have occurred here, and though the temperature is low and has been keeping that way, if it only happens once in twenty years, as has been the record of the past, the citizens of Alberta will make no complaint as they live in a goodly land that has many compensations for any such little inconvenience as a few cold days.

COST OF POWER

The city engineer and the superintendent of the light department of Calgary have figured out the cost of electric power in that city at \$20.65 per horse power per year, and they figure that when the plant is carrying a full load the cost will be about \$17. Under circumstances of this kind the city can furnish power at very reasonable prices and still realize a handsome profit for the city.

What is the matter with the Edmonton power plant? The present cost of a one-horse power motor amounts to about \$75 per annum. This is an extraordinary rate and either the city is making too much money out of it or else the management is in pretty bad shape. As long as the rates remain so high the consumption of power is bound to be very limited as the charges are prohibitive. The power question in this city will stand some investigation. The city council should take the matter up at once. If this city is to attract manufacturing companies we must be prepared to give them the cheapest power that can be produced. The city is built upon a bed of coal, every ton of which represents power that can be utilized to make Edmonton a great producing centre for manufactured articles. It will never be done at the present charges for power and the sooner this question is taken up and properly solved the better for the future business of Edmonton.

The Albertan figures that electric energy can be generated in units of 500 h.p. by a producer gas plant, using coal at \$2.50 per ton, at a net cost yearly per horse power of \$15.50.

NOTE AND COMMENT

Milk is reported scarce in Calgary, but then there are so few whom this will affect in that city.

The Chinook of Calgary is blowing red hot upon the human combine at present that the southern city is in danger of a fire.

The report of the Provincial Secretary of Manitoba shows that only one quarter of that province is under cul-

ture the room there is yet in the West for farmers.

It is rather amusing to see the way in which Ontario papers are advertising the cold weather in the West. That province should remember the winters of 1903-04 and 1904-05, when there were neither trains nor mails for weeks in Ontario.

Toronto is having an interesting fight with their street railway at the present time. Controller Hocken has forced the hand of the mayor and policemen are stationed at corners to force cars to take the routes mapped out by the city engineer.

The Grand Trunk Railway company has made arrangements whereby unused tickets will be paid for at full value if presented at the office where purchased within thirty days of the date of purchase. This is a convenience all railways should adopt.

Churches To-Morrow

McDougall Methodist, corner College and First street; pastor, Rev. J. R. Harcourt.

The pastor will preach at both services. Morning service at 10 a.m. and evening at 7 p.m. Rev. Dr. Chown, Toronto, will address the meeting.

Look into this roofing question

Get look on "Roofing Right" and see how little risk you take where you roof any building with

"OSHAWA" GALVANIZED STEEL SHINGLES

Sold under a plain GUARANTEE that keeps your roof roof for 25 years. With decent care, an Oshawa Shingled roof will last a CENTURY.

Easy To Put On

With a hammer and a snips (tinners' shears) anybody can put Oshawa Shingles on perfectly.

Locked on all four sides—the side lock. It drains the shingles so that water can't seep under. Top lock (see below) makes roof practically one piece and sheds water quick. Made in one grade only—24 gauge semi-toughened steel, double-galvanized (saves painting).

Wind, water and fire-PROOF. Keep buildings safe from Lightning. Cost only \$4.50 a square (10 ft. x 10 ft.).

Send for booklet and learn how little a RIGHT roof costs. Address

The PEDLAR PEOPLE of Oshawa

Montreal 2033 Cedar St. W. Toronto 110 Dundas St. W. Winnipeg 1845 Exchange St. Vancouver 613 Denison St.

AN EASY WAY TO MAKE \$3000 a 24-week return. Just saving time of paper and entering the best food ever eaten. O-SHAWA MEAT is as delicious as it is nourishing and healthy. You have to get this \$3000 for nothing. It is sent in the largest number of coupons taken from the packages. You can be the lucky one as easily as not and in doing so the whole family will grow plump and strong. There are prizes, too. Coupons must be mailed or delivered on or before Saturday, Feb. 16th, and must reach the office of Orange Meat Co., Kingston, before April 15th, 1907, when the prize will be awarded.

MRS. HUNTER'S STORY

says Results are "Truly Wonderful"

Mrs. I. Hunter, of 111 Raglan Road, Kingston, Ont. writes—

"I have suffered with kidney and liver trouble and chronic constipation for some time. I was subject to dizziness, bilious headache, nervousness, depression, pains in the back and side, and a tired, weary feeling nearly all the time."

"I tried almost every medicine, was treated by doctors and druggists with little or no benefit."

"I tried Dr. Leonard's Anti-Pill, and the results have been truly wonderful. I am so much better. Anti-Pill is a most wonderful remedy."

"Farthest North" for Mooney's Perfection Cream Sodas

Cities and towns do not confine the demand for Mooney's Perfection Cream Soda. Away to the frozen Arctic, 1200 miles north of the railroads—"huskies" carried a load of these delicacies for the northern traders last winter.

And after their 3,000 mile journey, these biscuits were just as fresh and crisp—as inviting and tasty—as they were when they left the casks at Stratford.

Wherever there is civilization, there is the demand for Mooney's Perfection Cream Soda.

If you want to get all the good out of life and know to the full the joy of living—build up the foundation of good health with a morning glass of

TO INVESTIGATE COAL SITUATION

Minister of Public Works Makes Important Announcement in Legislature Yesterday—Commission to Enquire into Differences Between Coal Operators and Miners.

The most important statement made in the legislature yesterday was handed out by the Minister of Public Works, Hon. W. L. Bennett, on the coal situation. The minister gave notice that next Tuesday he will move for the appointment of a commission to enquire into the differences and difficulties that exist between coal operators and miners.

Mr. Bennett, chairman of the committee on standing orders, reported that the committee had examined the petition regarding the incorporation of the T. M. C. A. of Edmonton and found no evidence that the petitioners had complied with the rules relating to advertising. The report was read and concurred in by the House. He reported also on the petition of W. L. Bennett and others, of Calgary, for the incorporation of the Elks Club at that petition was not addressed to the clerk of the Legislative Assembly but to the Hon. the Lieutenant-Governor. The report received and concurred in.

The Attorney-General's bill relating to converted elections was read and passed a first time. The second reading is set down for next Wednesday. Mr. Bennett's motion which has been standing on the order paper since the appointment of the members to the executive council upon which the incorporation of the House, was by his own request left to stand over until next Tuesday.

GOVERNOR SWETTENHAM

Character Study of the Man Who Set Two Continents Ago by Rusty Action in Rejecting the Hand of Friendship

Till just with a slight stop that detracts from his height. Possessing well-marked qualities of feature and a pair of judiciously penetrating eyes twinkling beneath heavy white eyebrows that match the almost white hair which combs along the crown of the firm line of his head.

He is the son of a Scotchman, born in the county of Derbyshire, England in 1846, and educated at Jesus College, Cambridge. He was practically spent all his life in the colonial civil service of Great Britain, first entering it as a writer in London, where from 1865 to 1868, he afterwards became an auditor-general.

When Cayton he passed to Singapore as colonial secretary, and was acting Governor of the Straits Settlements when appointed to Governor of British Guiana in 1891. He was in Great Britain's only colony in South America that had a particularly distinguished administrator, although he had previously been knighted for his services in 1894. At the time of his taking over the reins of administration the colony was loaded with an enormous debt of \$1,000,000.

His first act was to reduce the debt to \$500,000. The colony was in a state of chaos. The people were in a state of anarchy. The law was a mere name. The people were in a state of anarchy. The law was a mere name. The people were in a state of anarchy. The law was a mere name.

SPORT

BASEBALL TEAM NEARLY COMPLETE

Another Pitcher Signed—Which completes the List—Letbridge should be Strong—Gass of the Diamond.

Manager White has a deal on now for a crackerjack right hand pitcher. Peter Hanson who was with Fargo in 1906 and 1907. In the former year the team landed the championship in the Copper Country League when he beat 24 victories in the regular season and a dozen losses. Burlington, Ia., and Fargo are also close allies. He is a friend of Manager White and is pretty certain to play on the Canadian side this season.

Notwithstanding Lincoln, Neb., efforts to land Bill Bennett the ex-Duluth outfielder will be with Edmonton in 1907. 1906 batting averages are not available as yet but in 1906 he was hitting at a .370 clip and earned \$1,000.00.

There will be a meeting of the directors of the Edmonton club on Monday night to select the color and trimmings of the team's uniforms and also to arrange for the training trip to the north.

Manager White expects to get the team started on the spring training games about April 15th, and will have the players report on the 15th at some point in Eastern Washington. "Don" gets the Walla Walla, a city of nearly 10,000.

If Pitcher Hanson comes to Edmonton there is a good chance of him bringing along a friend of his, John Rose who played in the outfield with Fargo last year, and who has been promoted his 7th season in the team. He is not only useful in the field, but he can do backslapping equally well. He is a fair hitter and can handle the ball to the plate from the outfield a little better than most of them.

Catcher Jim McGuire has passed the 10th year of service on the diamond. Manager Harrison, of Letbridge, is down to work and if he looks a few of the last ones he has looked out for the club miners are going to land right up near the top when the season opens.

Letbridge News: The league schedule of which a draft will not be finally made up until the date for the Letbridge fair assembly, and these will not be decided until then for Edmonton and Calgary are announced, which event, however should take place very shortly.

BASEBALL

The New York Nationals will travel a mile on their spring training trip.

The baseball season opens in Vancouver on April 29 and continues until Oct. 1st.

Half mile—Novell, Hagitt, first; J. K. McCulloch, second; Hamilton and Hamiltonville, close heat for third. Time 1:15.

1 mile—Hagitt, first; McCulloch, second; Hamiltonville, third. Time 1:50 3/4.

Two miles—Hagitt, first; Hamiltonville, second; McCulloch, third. Time 3:30.

LES

To get relief from the agonizing pain of piles just take this simple course. Apply a little Zani-Buk ointment, either with the hand directly or on clean lint, and lie down for a short spell. Do it at night! You will be amazed at the ease with which follows! Zani-Buk stops bleeding, allays pain, soothes the itching, and stops the irritating itching so common in this ailment. The cure of piles is only one of the many uses to which Zani-Buk may be put. For all inflamed places, for cuts, bruises and skin diseases it is on a par with itself. There is absolutely nothing to equal it. Good for the tender skin of children. Doctors recommend it. Nurses daily use it. Ask your friends who have tried it.

GRATEFUL FOR RELIEF.

Mrs. Elizabeth Taylor, of 477 Greenwood Avenue, Toronto, says:—"For four years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'cures' and doctors' prescriptions but I got no relief. Zani-Buk was different to everything else I had tried and it cured me. I am grateful for the cure, and as I have never had piles since, I know the cure is permanent."

CURED AFTER 9 YEARS.

Mrs. Nell Brown, of 117 "Grand Central" says:—"I was bothered for eight years with piles and a badly cracked bottom. I tried everything but I got no relief. Zani-Buk was different to everything else I had tried and it cured me. I am grateful for the cure, and as I have never had piles since, I know the cure is permanent."

WHAT ZANI-BUK WILL CURE Zani-Buk is a purely herbal balm and will cure eczema, skin eruptions, ringworm, hemorrhoids, bad leg, chapped feet, and all skin diseases. It quickly heals cuts, abrasions, burns, chapped hands and cold sores. Rubbed over the chest it eases the tightness due to cold and asthma, and used as an embrocation cures rheumatism, neuralgia, etc. All druggists and stores sell at 50 cents a box, or post free from the Zani-Buk Co., Toronto, upon receipt of notice. 6 boxes sent for \$2.50.
